

Skyview Elementary School

Mr. Doug Cowley
Principal

Mrs. Rose Kane
Assistant Principal

Welcome to Skyview Elementary School where learning happens every day. The teaching staff is an experienced group. Many of our teachers have been at Skyview for more than 10 years. The school receives Title 1 funds from the U.S. Department of Education. This money provides additional support personnel in the classroom to help students learn. Student computers are in every classroom and Skyview Library Media Center houses a 30-station computer lab. Teachers enhance instruction with eighty portable laptop student computers.

We want our parents to become partners in their child's education. Parents are encouraged to be involved in the parent Teacher Association (PTA), in our School Advisory Council (SAC) and as school volunteers.

Skyview Elementary provides a safe learning environment for all students. High expectations are set for students' behavior in the classroom and on our campus.
